START will have to come get bucket from me in BV. I'm not coming back to Denver.

Make sure we know how much geotextile we need for the two ponds.

Look at our options to set the bag manifold system below the R n B pond w a liner under the bags.

Maybe I could have you pull a bucket of (5 gal w lid ?) of R n B water for START to test Brenfloc w if they want to in Denver ?

. That reminds, make sure we have a combo or key to the gate at the top road.

I found out this weekend that the big bike race is running from Gunnison to Monarch on Wednesday and will have HWY 50 all messed up. So I'm headed down there tonight and will look at what Pete did tomorrow morning and get out. Let me know if you have anything specific you want a picture of.
